Through an articulation agreement between Mount Olive College and Watts School of Nursing, a student can graduate with an associate of science degree from Mount Olive College and complete the nursing requirements at Watts School of Nursing to apply for the NCLEX exam for licensure as a registered nurse.

To qualify for the associate of science degree, a student must first apply to and be accepted for admission into the Watts School of Nursing. Admission information is available on the Watts School of Nursing website at www.wattsschoolofnursing.org or by contacting Jennifer Hawkins from the Watts School of Nursing at 919-470-7345.

Note: You will not hear from Mount Olive College staff until you have applied and been accepted for admission into the Watts School of Nursing. If you have questions about the Watts program or your application for admission, please contact Jennifer Hawkins at the phone number above.

Program Format:
- Mount Olive College prerequisite course sequences have two entrance dates per year. A student may begin in January or May.
- MOC prerequisites are taught at the Watts location one night a week from 6 to 10 pm. Nursing courses are offered during daytime hours at Watts.
- All MOC courses must be complete prior to enrolling in any nursing courses.

Required Courses:
- In order to obtain your Health Science Associate degree a student must complete at least 18 semester hours with Mount Olive College regardless of the number of courses transferred in.
- Courses taken through MOC at the Watts location: ENG 111; REL 200; BIO 253; MAT 120 or higher; HIS 222; PSY 100; PSY 330, SOC 210
- General Education at Watts School of Nursing: ENG 112; HLH 110; Humanities (9 sh are met through the nursing concentration)
- Concentration at Watts School of Nursing: NSG 101, NSG 102, NSG 201, NSG 202 (52 sh).
